

Summary	
Develop the skills already gained at Level 2 or update your skills if you have been working in the industry. Explore the different techniques used for perming (spiral, hopscotch and piggyback). Play with colour techniques such as smudging and weaving radial highlights.	
What are the course aims?	What can it lead to?
You will gain expertise in techniques such as colouring, cutting, perming and dressing hair, and gain the qualifications to enable you to carry out hairdressing services. You will leave the course understanding more about the hairdressing industry and ready for work.	This course leads you directly to employment within the hairdressing industry.
What will I study on this course?	
You will study a range of units alongside the anatomy, physiology and science behind each technical service:	
<ul style="list-style-type: none"> * Monitor and maintain health and safety practices in the salon * Consultation support for colleagues on hair services * Cut women's hair to create a variety of looks * Style and dress hair using a variety of techniques * Creative hairdressing design skills * Hair colour correction * Perm hair to create a variety of looks * Colour hair to create a variety of looks 	
Are there opportunities for trips or fieldwork?	
Extra-curricular activities and community projects will be included.	
Are there any other costs?	A kit and a uniform will need to be purchased. Ask for details.
How will I be assessed?	What are the entry requirements?
Portfolio evidence, practical tests and either knowledge and understanding of tasks or an online test.	Level 2 must be achieved prior to enrolment on this course.
